

Medical Gas Switchovers

571 Series Medical IntelliSwitch™

The fully-automatic Universal Medical IntelliSwitch™ offers continuous, fail-safe pressure and flow control from liquid or high pressure medical cylinders which enables the user to select the ideal mode of supply with the simple push of a button. Proprietary software and control logic lower yearly gas costs and comply with NFPA 99 "Economizer" requirements by eliminating liquid cylinder vent loss and excess residual return. This makes the Medical IntelliSwitch™ the perfect choice for healthcare and medical gas pipeline systems.

Advanced Features

- Dual line regulator diagnosis
- Left side reserve inlet option
- NEMA 12 or optional NEMA 4 enclosure
- Advantium RX™ alarm interface
- Micro-processor control
- Field adjustable software
- On-site supply change
- Low loss technology
- Electronic economizer
- Self-diagnosis software
- Remote monitoring option
- Ethernet connectivity option
- RS 232/RS 485 connectivity

Applications

Healthcare and Medical Gas Pipeline

- Oxygen USP
- Nitrogen NF
- Nitrous Oxide USP
- Carbon Dioxide USP
- Air USP
- Helium USP
- Medical Mixtures

Medical Facilities

- Hospitals, Surgery Centers,
- Clinics, Hyperbaric Chambers, Dental Clinics, Extended Care Facilities, Nursing Homes

Materials

- Bodies**
Brass barstock
- Seats**
Viton, Neoprene
- Seals**
PTFE, Neoprene and Viton
- Enclosure**
Powder Coated Steel
NEMA 4 Option

Specifications

- Power Requirements**
110 or 220 VAC
- Maximum Inlet Pressure**
3,000 PSIG (210 BAR)
- Temperature Range**
0 to 140°F (-18° to 60°C)
- Flow Capacity**
Cv = 1.0
1800 scfh
- Filter**
40-Micron
- Inlet Connection**
1/2" FPT
- Outlet Connection**
1/2" FPT
- Weight**
XXX lbs.

Medical Gas Switchovers
